

Event Speaker

Speakers can be created as Experts in Add Content > Expert. Here you can upload the image of the speaker, add details like First and Last Name, Designation, Work Location, Biography, Area of Expertise, LinkedIn URL. Once the Expert is created, you can then add the Expert as Event Speaker using "Event Speaker" Component.

This component can be used only in Event Content Type and you can choose to show/hide image of the speaker. You can add more than one speaker to the event.
