UnoReady[®] 300 mg injection video

This page is specifically intended to support patients who have been prescribed Cosentyx (secukinumab) by a UK healthcare provider.

If you have any questions about your medication, ask your doctor, nurse or pharmacist and read the patient information leaflet provided with your medicine.

UnoReady® 300 mg injection video

This page contains a short 5-minute video showing you how to prepare and inject Cosentyx with the UnoReady® pen

Image

For a 300 mg dose, one 300 mg pen or two 150 mg pens are needed. If your device does not resemble the image above you should watch the alternative video for the Cosentyx SensoReady® 150 mg pen [here](#). This video does not replace the instructions and important additional information in the patient information leaflet.

This video is intended for patients who have been prescribed Cosentyx® (secukinumab) 300 mg solution for injection in pre-filled pen by their healthcare professionals, and who have received the necessary training for proper injection of the product.

If your doctor, nurse, or pharmacist has not given you or your caregiver the necessary training, please consult with your doctor, nurse, or pharmacist and do not attempt to inject Cosentyx until such training has been provided. This video does not replace the training that is necessary to be given by your doctor, nurse, or pharmacist.

Please read the patient information leaflet for Cosentyx 300 mg UnoReady® pen provided with your medicine carefully, as it contains important additional information about what you need to know before you start treatment.

This video does not replace the instructions and important additional information in the patient information leaflet.

Reporting of side effects

If you get side effects, talk to your doctor, pharmacist or nurse. This includes any possible side effects not listed in the package information leaflet. You can also report side effects via the Yellow Card Scheme at www.mhra.gov.uk/yellowcard or search for MHRA Yellow Card in the Google Play or Apple App Store.

By reporting side effects, you can help provide more information on the safety of this medicine.

This video has been funded and developed by Novartis Pharmaceuticals UK Ltd.

Please read the [patient information leaflet \(PIL\)](#) for your Cosentyx UnoReady® pen provided with your medication carefully, as it contains important additional information about what you need to know before you start treatment. The patient information leaflet is the leaflet included in the pack with a medicine. It is written for patients and gives information about taking or using a medicine. It is possible that the leaflet in your medicine pack may differ from the online version because it may have been updated since your medicine was packaged.

If you require any further information or are concerned about any aspect of the injection, talk to your healthcare professional.
